

Inline temperature transducer with Pt100 Type series GA2200

Application area

- · Food industry
- · Pharmaceuticals

Features

- Temperature transducer for mounting in the piping
- Temperature measuring with integrated Pt 100 measuring resistor
- Output signal: Pt100, 2(3)-wire technology
- EHEDG certified

Options

- Classification per SIL 2
- Transmitter can be integrated

Application

Inline temperature transducers allow a dead-zone free measuring of the pipe wall temperature. Measuring is performed without cross-sectional alterations and without contact of the medium with the measuring resistor. The transducer is integrated in the piping by intermediate screwing. A variety of screwings are available for different applications.

Technical data

Mechanical design

pipe body and necktube with integrated measuring resistor

Material

stainless steel mat.-no. 1.4435 (316L) other materials upon request

Connection head

selective

- · model B, cap with 2 slotted screws, mat. aluminium, IP 54
- · model BUZH, high spring cover with slotted screw, mat. aluminium, IP 65
- field housing Ø 60 mm, screw cap, stainless steel mat.-no. 1.4305 (303), IP 67

further connection heads upon request

Process connection

screwing as part of the piping, connections and DNs see order details; other values upon request

Pressure stage

see table under dimensions

Measuring resistor

Pt 100, class A per DIN EN 60751

Functional safety

per EN 61508, classification per SIL 2; without transmitter, only

Process temperature

-20...200 °C

Response time

dependent on medium and the ambient conditions, e.g. with water medium: pipe: DN 25

Rise of 20...90 % of the final temperature

 $Q = 0.5 \text{ m}^3/\text{h}$ t= 162 s $Q = 1 \text{ m}^3/\text{h}$ t= 54 s $Q = 1.5 \text{ m}^3/\text{h}$ t= 39 s

Weights

see table

Integrated transmitter

suitable Pt100 transmitters can be integrated into the connection head.
Options:

- a) instead of terminal block
- b) mounting in the spring cover of the connection head BUZH see product group T4 for analog or digital transmitters

LED-on-site indication

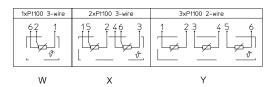

programmable LED-on-site indication for stainless steel field housing (Ø 60 mm), see data sheet M6-031.

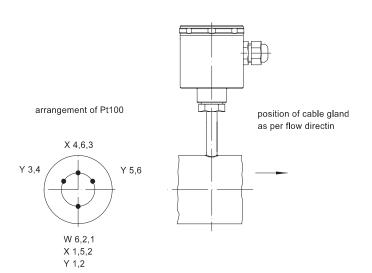

Information on other models upon request or see order details
